

Parent/Carer
Year 10
CEIAG Information Pack

Vision statement

Our students are ambitious with their career choices and have a clear understanding of how their time in school directly affects their career after.

Vision Rationale

Providing students with outstanding careers guidance is of the utmost importance. It is the key to opening our students' eyes to the possibilities and opportunities available to them once they leave school. It is our job to raise their social mobility, show them what is out there and guide them towards making good, appropriate education and careers choices that will enable them to have a rewarding career. It is our vision that careers guidance at Teesdale School allows all students to have access to appropriate and bespoke careers guidance at every stage of their academic career. Thus enabling students to successfully access the next stage of their career.

We deliver Careers Education in a variety of ways to all pupils from Year 7 to Year 13 and beyond to ensure that our young people are making informed and well supported decisions. Our Tutorial and Personal Development programme encourages our pupils to think about career planning from their earliest time in school and develop positive approach in everything they do.

We are actively involved in a range of projects to enable our young people to understand the breadth of opportunities available to them in their future education and employment, and partner with several organisations that support us in this aspiration.

Core Careers Offer and Student Entitlement

All students at Teesdale School have access to a fully-embedded and age-appropriate careers programme which includes CEIAG and work-related learning. This programme is strategically designed to ensure that our learners' needs are met throughout their journey with us.

Our core offer to students includes the following:

- One-to-one careers guidance sessions with a qualified adviser. All students have at least one appointment by the age of 16; however, our most vulnerable

learners are allocated multiple, and these are opened to our younger learners in the run up to options choices.

- Advice and support are strategically tailored to ensure that the needs of all individuals are met.
- Weekly careers newsletter and Termly Alumni focus newsletter
- Curriculum learning is linked to the world of work.
- Students are encouraged to engage with local labour market information via the career newsletters and SACU website
- Parental support, guidance, and communication.
- Dedicated careers and skills lessons delivered via form tutors.
- Regular access to up-to-date careers information via lessons, online resources, careers library and SACU.
- Further education visits, assemblies and events (including training and apprenticeship providers).
- Employer encounters, including STEM employers/training providers, including activities to challenge stereotypical thinking about the world of work. Experience of the workplace via work experience in years 10 and 12.

Year 10:

10	<p>Weekly newsletter</p> <p>Compass+ Future Skills Questionnaire</p> <p>Critical Business Thinking sessions each half term</p> <p>Assembly in form about National Green Careers Week</p> <p>Industry day</p> <p>Assembly in form about National Apprenticeship Week</p> <p>ASK Apprenticeship ambassador videos shared in form</p> <p>Assembly National Careers Week - 4Schools and ASK apprenticeships</p> <p>Careers fair at The Hub</p> <p>Celebrating Diversity & Equality (PSHE, RSHE, Citizenship, SMSC, British values)</p> <p>Life Beyond School (PSHE, RSHE, Citizenship, SMSC, British values)</p> <p>Termly Alumni Focus newsletter</p> <p>Future careers lesson week</p>
----	--

	Lessons from the real world
	CV and application workshop with ASK apprenticeships
	Recognising your strengths workshop ASK apprenticeships
	Preparation for work experience
	Work experience week
	Raising aspirations event

Specific dates of events will be confirmed nearer the time and information will be sent home with our Parent Communication system.

Work Experience

At Teesdale School we firmly believe it is vitally important for our students to experience the world of work first hand. Therefore we expect every child to source a work experience placement for themselves in July of year 10. We use Future Works to carry out all the needed Health and Safety checks to ensure our learners are safe during their placements. It is not necessarily important that students experience a workplace in the industry they are intending on working, as sometimes this is not practical, as they will learn key careers skills during their time on placement that are transferable between jobs.

We recommend beginning to source a placement as early as possible, as places are highly sought after. Generally, employers are happy to be contacted either via telephone, email or in person. We would suggest having a CV ready for employers to look over. If they require further support writing a CV, students will have further sessions in school looking at how to write CVs from external companies.

If you require support sourcing a placement for your child, please do not hesitate to contact Miss Ward (Bethany.ward@teesdaleschool.co.uk). Students will be given access to the school database of contacts, but unfortunately due to GDPR we cannot share these contacts outside of school. If you would like access to them, we would be more than happy to organise a time for you to use them within school.

Once the paperwork has been returned, checks will be carried out by Future Works before the placement is confirmed. Students will also receive information about health and safety in the workplace, correct dress codes and behaviour.

Looking Ahead – Post-16 Options

There are many different options and pathways that students can take following year 11. Investigating those opportunities and making the right decision can often be a

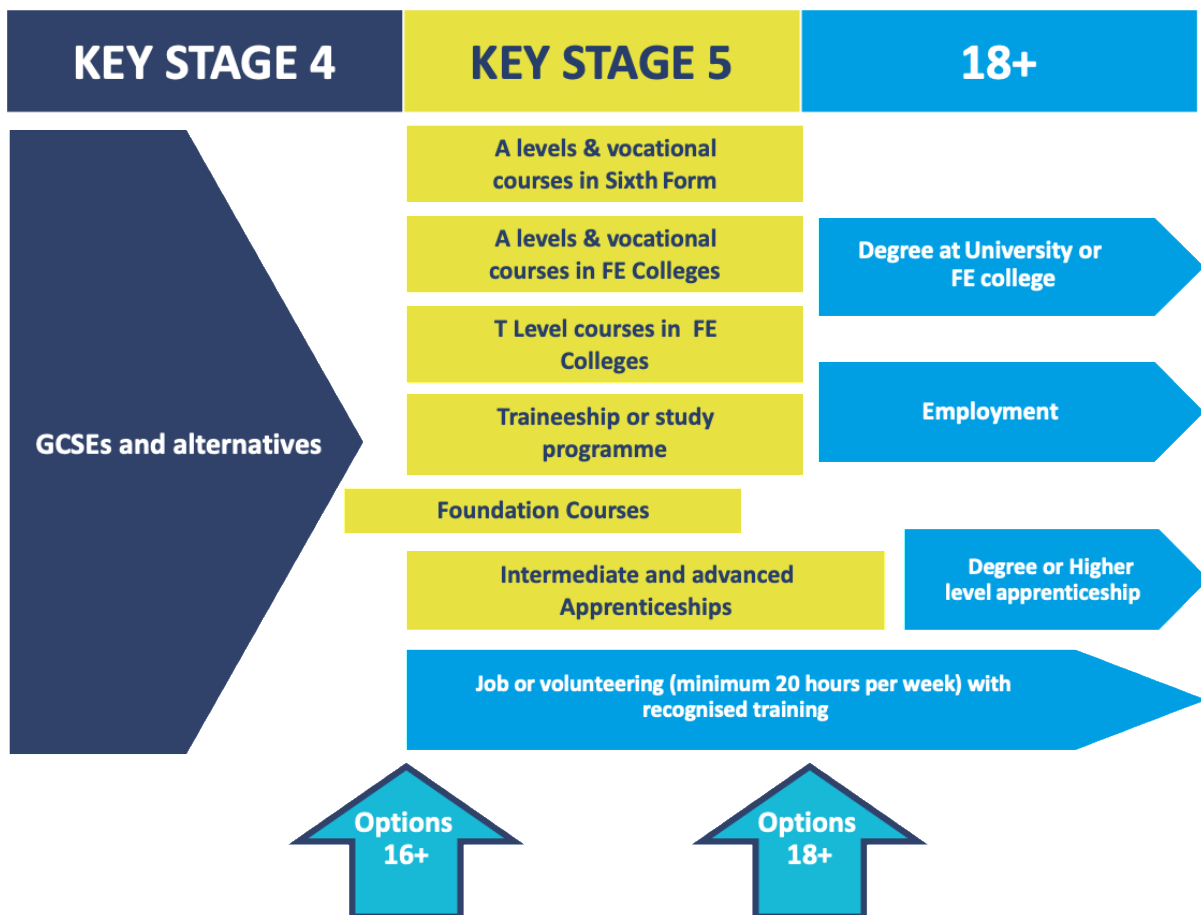

daunting process for students and their parents or carers. We have put this guide together to give you an overview of the different post-16 options available and to signpost you to all the support available. If they have not already done so, students should begin investigating courses or apprenticeships as soon as possible – you don't need to wait until year 11 to start thinking about this.

Post -16 Options

All young people must continue to do education or training until they are 18. There are several different options to choose from:

- Full-time education (Sixth Form or College)
- Apprenticeships
- Part-time education or training

All students who do not gain a grade 4 or above (previously grade C) in GCSE English and maths will be expected to continue studying these subjects post 16.

Full Time Education

A large variety of courses are available to suit the needs of the student and can be studied at a 6th form, college or with a specialist training provider. All study programmes will prepare them for higher level learning and employment and include opportunities for work experience and enterprise activities. Types of courses include: A levels, technical and vocational qualifications and T Levels. If students are interested in, but not quite ready for work they may be able to do a Traineeship or Supported Internship.

6th Form

Teesdale School has its own 6th Form: [Teesdale School Sixth Form Website](#) offering a range of A-level subjects as well as other Level 3 qualifications. Please contact Simon.henderson@teesdaleschool.co.uk if you would like more information.

Colleges, FE and Training Providers

There are a number of local Further Education Colleges that students can choose to progress onto. They offer a wide range of vocational subjects and some also offer A-levels or similar, more academic, qualifications. Contact details for local college and training providers can be found on the final page of this booklet. Colleges offer a variety of open evenings, it is best to check on individual colleges websites for details of these.

T Levels

T Levels are new courses that started in September 2020. These 2-year courses will be equivalent to 3 A Levels and have been developed in collaboration with employers and businesses. T Levels will offer students a mixture of classroom learning and 'on-the-job' experience during an industry placement of at least 315 hours (approximately 45 days).

This year, in the North-East, the following T Levels will be available:

- **Northumberland College:** Education & Childcare or Health
- **Gateshead College:** Digital Business Services; Digital Production, Design & Development; Digital Support Services; Education & Childcare; Health; Management & Administration; Design, Surveying & Planning for Construction; Onsite Construction.
- **St Thomas More Catholic School, Gateshead:** Digital Production, Design & Development; Digital Support Services; Education & Childcare; Health.

More T Levels will follow in September 2023. Visit: <https://www.tlevels.gov.uk/> for more information

Apprenticeships

Apprenticeships combine high quality training with paid work. There are hundreds of types of apprenticeships, suitable for over 1,400 job roles. They are advertised throughout the year and can be found on <https://www.gov.uk/apply-apprenticeship>. Some companies advertise on their own website so we would advise that students regularly check the websites of companies they are interested in. More information and application support can be found at www.amazingapprenticeships.com.

Apprenticeships are increasingly popular but are very competitive, so students should start looking and applying for apprenticeship vacancies as early as possible. Given the uncertainty that many businesses face under these unprecedented circumstances, we would recommend that all students who have applied for or are thinking of applying for an apprenticeship also apply for a full-time course with either a further education or training provider as a backup option.

Part Time Education or Training

If a student plans to work full-time for an employer, for themselves or as a volunteer, they must spend the equivalent of one day a week working towards approved and nationally recognised qualifications. What, where and how your teenager learns will depend on the nature of their full-time work and whether the learning is organised for them or they organise it for themselves.

Contact Information

Colleges and Further Education Providers:

- **Newcastle College** - [Newcastle College \(ncl-coll.ac.uk\)](http://ncl-coll.ac.uk)
- **Gateshead College** - [Gateshead College | Gateshead College](#)
