Halloween horror

It was a dark gloomy Halloween night. there were some kids trick or treating in a small village after few hours they begin to go to the back of the village they went to a house were a family of five lived. Their mam had collected dolls for a very long time, so she had a big box of them in the attic. no one knew that on Halloween night those kids went to the house they rang the door and the door opened by its self so they looked down and saw lots of dolls so like every other person would they ran away but then thought it was a Halloween prank so they looked back to see the clowns chasing them so they begin to run and scream in fear . The neighbours herd the boys screaming and looked out the window to their shock they saw dolls shouting and chasing them. they called the police and reported suspicious activity. The police came but there was nothing in sight. Apparently the last the neighbours heard was they yells and screams of the boys before silence. Then out of know where BANG !!!!!!! A gun shot came from the house where the clowns came from the police ran to house to search and check to see what happened. They could hear some boys crying from the attic and a voice mumbling they could not make out what they were saying. Then another 2 gun shots the silence. They opened the attic door and checked and found the three corpses laid with holes in their head the police saw the dolls and shot them all to make sure they didn't get shot , BANG, BANG, BANG, BANG, BANG , BANG,BANG , BANG , BANG , BANG . They all exploded into loads of pieces they had to get an ambulance but there was nothing they could do they were dead. The hole street was crowded with people as they carry the three corpses out of the house and the scientists went in but never came out again ………...
